THE HERALD.

JOHN P. BARRETT, EDITOR.

WEDNESDAY, APRIL 15, 1885.

DR. T. N. WARFIELD, of Breckinridge county is a candidate for Senator.

CAPT. A. JACK GROSS gobbled up the U. S. Marshals plum last week and has returned home.

THE APPOINTMENT of U. S. Marshal for Kentucky turned out to be a very Gross affair after all.

JUDGE W. F. GREGORY has been selected by numerous friends to run for Senator, but has not yet consented to make the race. He would make an able Senator.

COL. W. H. YOST, of Greenville, is spoken of as a suitable man for Senatorial honors. He possesses superior abilities for the position, but if he had a warm competitor for the honors we fear he would not be able to run the race through, as he is so frail and delicate.

A NUMBER of the Democrats of Butler county have requested Mr. A. L. Morton to make the race for Senator. Mr. Morton was for a long time Circuit Clerk of this county, and was always a successful candidate, and if nominated, could no doubt make this race a success, and he would make an efficient legislator.

HON. W. D. COLEMAN is this week announced as a candidate for re-election to the Legislature. He is a sober, careful business man, a time-tried, unflinching Democrat; has a good legislative record and his candidacy is deserving the consideration of the Democratic voters in determining who shall be their standard bearer in the race.

MRS. SALLIE R. OGDEN of Owensboro was adjudged insane last week. She has long been engaged in a lawsuit with the brother of her deceased husband and it is thought the strain upon her mental faculties on account thereof has produced the insanity. The case was once tried in this court, Hon. Sam E. Hill presided over the trial. Mrs. Ogden will be taken to Hopkinsville for treatment.

It seems that nobody is hankering after the Senatorship from this district. There is a call from the Muhlenberg Democrats for Hon. Sam E. Hill to make the race. The Captain has a good legislative record, is a popular man and if he can be induced to make the race would make it a success. The Captain, however, is an applicant for U. S. Pension Agent, and if successful in that, will not consent to make the race. He might otherwise be induced to run if there was a general desire manifested by the Democrats of the district for him to do so.

The Evansville Democrats won a splendid victory on the 6th, electing the entire city ticket for the first time since 1870. The Journal, the leading Republican paper of South Indiana, referring editorially to the result, says:

The Democratic city ticket was elected, every man on it, yesterday, by a majority of over a thousand votes on the general ticket. The Democratic candidates for council were all elected, most of them by unexpectedly large majorities. When the latter are sworn in, the council will stand ten Democrats to two Republicans. This result is a surprise to everybody, Democrats as well as Republicans. The largeness of the majorities was entirely unexpected.

The Echo would like to know the reason there is not a candidate for the senate from this district. Is the office not worth having? Is no one going to offer for it? It is time the race was being made up, or at least discussed. We know that there will be a close vote in the district, but we think that we could name a few good Democrats who could lick any man the Republicans may bring out. We have heard Capt. Sam E. Hill's name mentioned in connection with the race by several good Democrats in this county, and believe he is the first choice of the Democracy of Muhlenberg county for the position, and that he can leave Muhlenberg with a good majority. Hurrah for Sam Hill. — *Muhlenberg Echo*.

Buck, Blackburn, Buck and Bugs. It seems that Mr. Buck is an entomologist and sought the Peruvian Mission in order to perfect himself in the science of Bugology. Peru is a great country for insects and is the place where the great Cochineal bug is found, out of which is made dye-stuff of the most valuable kind. A great company is being formed in the Blue Grass Country for the manufacture of the dye-stuff, while Messrs. Phil. Thompson and Rhey Boyd will be the traveling agents for the introduction and sale of the coloring goods.

A. E. NEWMAN, Democratic candidate for the Legislature from Muhlenberg county, has withdrawn. This leaves H. Y. Thomas, Jr., of the Central City Argus, the only Democratic aspirant.

JOHN E. YOST, of Muhlenberg county, has taken charge of the C. O. & S. W. R. R. office at Memphis, Tenn. He is a young man fully worthy of the confidence reposed in him and will fill the position satisfactorily.

CAPT. SAM E. HILL, of Ohio county, is a candidate for the State Senate. He is an experienced legislator and an able one. It is to the great advantage of the State when such men consent to serve it. — *Carries Journal*.

You are a little too previous. The captain has not consented yet to make the race, but all the balance you say concerning him is to the point.

Capt. Sam E. Hill. Since writing a little editorial on the Senatorial contest, which will be found in another column, a call upon Capt. Hill to become a candidate has been handed us. The Echo has long since taken the ground embraced in the call, and is yet ready, willing and able to go its length for Capt. Hill if he is a candidate, provided there is no son of Muhlenberg who wants to offer for the position, which we don't believe now will be the case. — *Muhlenberg Echo*.

A Primary Election. At a meeting of the Democratic Committee of Ohio county, held at Hartford April 6th, 1885, the following resolutions were adopted, viz:

MANY DEMOCRATS of Muhlenberg.

A Call on A. L. Morton.

Death of James Burch.

Died at his home in Breckenridge county near the Ohio county line at 6:40 o'clock A. M. Monday, April 16th 1885 of pneumonia. James E. Burch, in the 65 year of his age.

Mr. Burch was born on what is now known as the Wm. Tittle farm near his home, December 7, 1820, and was son of Benjamin Burch, a soldier of the revolutionary war, who served seven years during the struggles of the colonies for independence. In the year 1810 he moved from Prince George's county, Maryland, to Ohio county, Kentucky and settled on a farm near Barrett's Ferry and from this farm to the Wm. Tittle farm where his son James was born. His remains and those of his wife were interred in the George Matthews graveyard in Breckenridge county.

January 30th, 1820, James Burch married Miss Nancy H. Godsey, daughter of Samuel and Betsy Godsey, early settlers of Ohio county.

Mr. Burch had been a member of the Episcopal church for many years at Pleasant Grove, Ohio county, and at the time of his death was warden of the church in the church at that place. He leaves a wife and seven living children, four sons and three daughters, all married. His sons are Taylor, Noble, Henry and Remus; the daughters are Mrs. Chloe Shreve, wife of Thomas H. Shreve, Mrs. Malvina A. Overton, wife of Samuel W. Overton, and Mrs. Amanda A. Pate, wife of Elias T. Pate.

At 10 o'clock, Tuesday morning, his funeral sermon was preached at his home by Rev. B. F. Jenkins, from the text "Know ye not that there is a prince and a great man fallen this day in Israel?" in Samuel in chapter 28 verse. After service his remains were taken to the Godsey grave yard on the farm now owned by Elias Walker in Breckenridge county and laid by the side of his three little sons.

Mr. Burch was well respected by all who knew him and the community in which he resided had appointed him to represent them in many instances, and he was one of the Justices of the Peace for what is now known as the cut-off in Breckenridge county. He was a man with but little to say, of very quiet manners, and in counsel as a member on committee, expressed his views in a few words and to the point of discussion.

Obituary. Died, near Cane Fund, Grayson county, Monday April 16th the 6th 1885, of cerebral spinal meningitis after a sickness of five days. Posey Walter, son of Clark and Josephine Bratcher, aged about four years. At 10 o'clock Wednesday morning his remains were laid with other relatives in the grave yard of his great-grand-father James W. Matthews on the farm now owned by Lee Grant near Pattierville. The Saylor family in its wits. With his head upon his breast, And now with's the Saylor. And quiet and at rest.

FORBES.

Mr. Heber Matthews, who has been a very important man about the Sunbeam office for the past six or seven months, resigned that position last week, and left on Sunday morning's express for Hartford to accept the foremanship of the HERALD. Heber is quite a valuable article to have about a printing establishment, possessing sober habits, moral habits and a varied talent in regulating type in order to make it show up properly on white paper. We congratulate friend Barrett in securing the services of so useful a man to manage the affairs of his office.

Destructive Fire. On last Saturday evening the steamer Rosa Belle gave an excursion last Sunday, and it was the pleasure of several Hartford people to attend

GENERAL GRANT.

Is the Old Hero Dying Because of Medical Intolerance?

The American Homeopathist has an
article on the treatment of General
Grant by the Allopathists, in which it
says:

"General Washington was murdered
by his medical attendants; but at least
they were heroically—too heroically—
endeavoring to extinguish the disease.
Their brutality was of the active sort,
and in purpose commendable, though
disastrous in result. General Garfield
was maltreated for months under an er-
ror of diagnosis, and at last escaped beyond
the reach of his eminent torturers.
Here, also, there was much medical
negligence and activity displayed, albeit
misdirected. Other illustrious patients
have suffered from eminence in the profes-
sion; but General Grant seems to have
served as a shining example of cold-
blooded expectancy. To him the ill-
group of eminence have nothing to
offer but a diagnosis. For him they
propose no relief but in the grave,
ignoring the only source of therapeutic
salvation, they gather round his bed-
side to observe his moulded struggle.
The day has gone forth that nothing
can be done and nothing will be per-
mitted to be done. Those who question
such a decision are quacks and cranks;
but who ought not to be proud of such
a designation from such a source?
Solely, refined, cultured, earnest
gentlemen as they are, of whom avail
are all these good qualities in the presence
of such therapeutic bankruptcy? On
the contrary, while scented scientific
medicine is to the fore, well may the
daily papers announce in startling
headlines, "A bad day for General
Grant—Seven doctors in consultation."
Yes, the hero of Appomattox is dy-
ing!

He who knew no fear in war, knows
no fear in suffering. His quiet fortitude
wins universal admiration.

President Lincoln, in visiting a hospital
during the late war, noticed a poor
Confederate boy, mortally wounded.
With his native tenderness he put his
arms around the boy's neck in sympathy.
The sight met the hospital to tears.

The heart of the American people in
like manner bleeds for Grant, the silent
sufferer. It would have him get well,
by any effective means.

His physicians say he can not recover.
They fill him with medicines but
despite their favorable bulletins he is
daily growing worse.

A specialist who has won reputation
in the treatment of cancer visits his
bedside. The opposition he encounters
from the attending physicians brings
painfully to mind the story of the dog
in the manger.

And General Grant, perhaps, must die
because of this intolerance? Is it possi-
ble that there is no hope of cure un-
der the medical profession?

Preposterous!

For years medical men insisted that
certain fevers were incurable, but
Chinon proved the contrary. For
centuries they have protested that
certain renal disorders were incurable and
yet a special preparation has cured and
permanently cured the word cases.

Why may it not be possible in like
manner to cure a case of cancer? B. F.
Larrabee, of Boston, was doomed to
death by many eminent Boston physi-
cians. J. B. Henlon, M. D., of Rochester,
N. Y., was given up by the best
doctors of all schools. Elmer J. S. Pres-
cott, of Cleveland, Ohio, was gravely in-
formed by them that he could not live,
and yet these men and thousands like
them have been cured and cured per-
manently, of serious kidney disorders,
by a remedy not officially known to
the code.

What has been done may be done
again.

General Anson Slager died of Bright's
disease in Chicago last week. "Jim!"
Goss, the Boston pugilist, died of it.
Hundreds of thousands of people per-
ish every year, while in their doctor's
hands. The cause of death may be
called blood poisoning, paralysis, heart
disease, convulsions, apoplexy, pneu-
monia, or some other common ailment,
but the real difficulty is in the kidneys.
Physicians know it but they conceal the
fact from their patients, realizing their
inability to cure by any "authorized"
means. The remedy that cured Lar-
abee and Henlon and Prescott (i. e.,
Warren's safe cure) is a special, inde-
pendent discovery. Its record entitles
it to recognition, and it gets it from in-
telligent people. Its manufacturers
have an unsullied reputation and are
entitled to as great consideration as any
school of physicians.

Professor R. A. Gunn, M. D., Dean
of the United States Medical College
of New York City, rises above profession
at prejudice and on its personally
proved merits alone gives it several
pages of the warmest commendation in
his published works—the only instance
on record of a high professional endorse-
ment of such a preparation.

The unprejudiced people do not want
General Grant to die. If there is in all
the world a remedy or a man able to
cure his cancer, give them a chance.

Will they do it?

No.

It is not often the case that many
excellent physicians who are greatly
devoted to the code, would prefer that
their patients should die rather than
that they should recover health by the
use of any remedy not recognized under
their code?

Some Ways of Making Love.

Lovers seldom make love in the
same way. Barks inhaled. Vivian
charmed Merlin. Alexander made a
bouffre for Thais. Basso's soft-soldiered
Portia with a leaden casket. The
garrulous female in the Arabian Nights
told her husband stories. Hippomenes
had a close race for Atalanta, but he
played the apple game on her. In the
Polynesian Islands she wins her
husband by beating their heads with a
shillelagh. Harry the Eighth and Blue-
beard were off with the head of the
old love before they were on with the
new. Newton poked down the teacup
in his pipe with his sweetheart's finger
—a warm token of affection. Tristam
did it mostly with the heart. Bothwell
was inclined to Mary, and locked her
up in his castle. Cobett's wife caught
him by the nose with which she used
her washbowl. Romilly, the famous
lawyer, killed himself because his wife
died, while a great many others kill
themselves because they will not die.
Nicholas of Russia wanted to "pop" at
the dinner table, but did not like to be
caught at it, so he embedded a ring in
a lump of bread and handed it to her.
Charlemagne's secretary was caught by
a snowstorm flirting with the Emperor's
daughter at midnight, and she carried
him into her home on her back, so that
his footsteps should not be traced. The
Emperor heard of it and gave him to
her for the balance of her life.—*Philber-*
